

Third-Party Data Options

Otus can house every existing data point your district has on students in **one place** so you can use all of your data to make informed and thoughtful decisions.

Third-Party Data Automation

Below are third-party assessment programs that Otus can **automatically** receive data from as students participate in testing.

Renaissance
FastBridge

Renaissance
Star Assessments

Third-Party Data Uploaded by the Otus Client Data Team

With Otus, you have a dedicated team to upload and organize all of your student data within our platform. Below is a list of **national, state-specific, and local data** Otus has uploaded for school districts across the country.
