

MTSS is the system — not another initiative

Unify your district's top priorities with one scalable support framework.

INITIATIVE FATIGUE

Districts often juggle disconnected programs, each with its own team, timeline and tools. The result? Duplicated work, misaligned efforts and uneven student support.

MTSS (MULTI-TIERED SYSTEM OF SUPPORTS)

MTSS brings structure and cohesion to your hard work. It's not just another thing to implement — it's how to implement what matters most.

5 examples of MTSS in practice

1. Early literacy and academic recovery

MTSS accelerates learning by meeting students where they are.

IDENTIFY

Uses screeners and assessment data to pinpoint skill gaps in reading and core subjects

SUPPORT

- Tier 1:** Delivers strong, standards-based instruction for all learners
- Tier 2:** Adds targeted small-group help for those who need extra support
- Tier 3:** Offers tailored, intensive interventions for students with the greatest needs

MONITOR

Tracks reading fluency, comprehension and academic growth over time

2. Math achievement

Applying the MTSS model to math lets educators identify gaps early, provide targeted intervention and track growth across tiers.

3. Chronic absenteeism

MTSS helps you re-engage students through proactive, data-informed support.

IDENTIFY

Analyzes attendance patterns and early warning signs to flag students at risk

SUPPORT

- Tier 1:** Builds a positive attendance culture through consistent messaging
- Tier 2:** Offers check-ins, peer mentors or small-group support
- Tier 3:** Develops individualized re-engagement plans, often with family or community partners

MONITOR

Measures attendance gains by tier to assess what's working

4. Portrait of a Graduate

MTSS helps students develop life-readiness skills — not just academic achievement — through tiered supports aligned with graduate profile goals.

GLOBAL CITIZEN

5. Behavioral health and SEL

MTSS supports mental well-being with tiered, schoolwide strategies.

IDENTIFY

Uses SEL assessments, behavior screeners and staff observations to flag support needs

SUPPORT

- Tier 1:** Strengthens SEL instruction and school culture
- Tier 2:** Enables group counseling and targeted behavior support, such as social skills instruction and mentoring
- Tier 3:** Guides individual behavior plans, referrals and crisis response

MONITOR

Reviews behavior data and SEL growth to inform support

Why MTSS matters

When every initiative runs through MTSS, educators spend less time reacting and more time supporting. By aligning your efforts through one framework, you can:

- ✓ Reduce initiative fatigue
- ✓ Scale what works
- ✓ Support more students, more equitably

Find out how districts are making MTSS more efficient with real-time progress monitoring.

Otus is an award-winning K–12 assessment, data, and insights solution built by teachers for teachers. By unifying student data with tools for assessment, progress monitoring, and equity-driven insights, Otus helps educators, administrators, and families support every student's growth and success.
