Challenge

East Moline SD 37 had an ambitious goal: create a more personalized learning environment for their students by giving teachers and administrators real-time access to student progress. They decided to implement standards-based grading but needed a platform to support them through the significant transition.

Actions

With a list of requirements in mind, East Moline SD 37 began searching for a platform that could provide a personalized learning environment for their students. They found Otus and immediately knew it was a perfect fit. Otus provided the power needed to pull meaningful data reports, along with the flexibility to implement SBG at their own pace. The ability to track both standards and points in the same gradebook would allow for a gradual rollout, combined with Otus' industry-leading training and chat support, set up each teacher for success.

Results

Since implementing Otus in 2020, East Moline SD 37 has successfully rolled out Otus to five schools and 2,800 students. However, East Moline did not just successfully roll out standards-based grading, they took their new insights and acted on them. Educators are now using this data in PLC's to inform decisions around data-driven instruction. The combination of insights and action has truly set up East Moline for a more personalized learning environment.

Gradebook 1 ELA (Mrs. Carroll) Points Standards

Calculating by Decaying Average

First Name	Last Name	CC.1.3.3.B	CCSS.ELA-Literacy.CCRA.R.2	CCSS.ELA-Literacy.RI.6.10	CCSS.ELA-Lit

Class Performance

Meet Otus

The Standards Gradebook

Otus makes standards-based grading easy. The built-in gradebook can simultaneously track both points and standards giving you the best of both worlds and making implementation easy. Custom standards, multiple calculation methods and world-class teacher chat support are just a few ways that Otus helps schools succeed with standards-based grading.

Customize

Pick the standards, skills and criteria you want to measure student performance against.

Teach

Create and give frequent common assessments to see the complete picture of student growth.

Share

Communicate student progress with a standards-based report card designed to display the road toward mastery.

Report

Showcase standards-based student growth data over time in one place: Otus.

Software with a growth mindset

K-12 administrators, educators, students and families deal with disconnected edtech tools every day. Otus minimizes the chaos by providing one seamless platform to teach, grade, analyze and plan.

Access learning management, assessment, data and progress monitoring tools in one system, with one login. With Otus, school leaders can focus on student learning, not technology.
