Assessments Completed

## Challenge

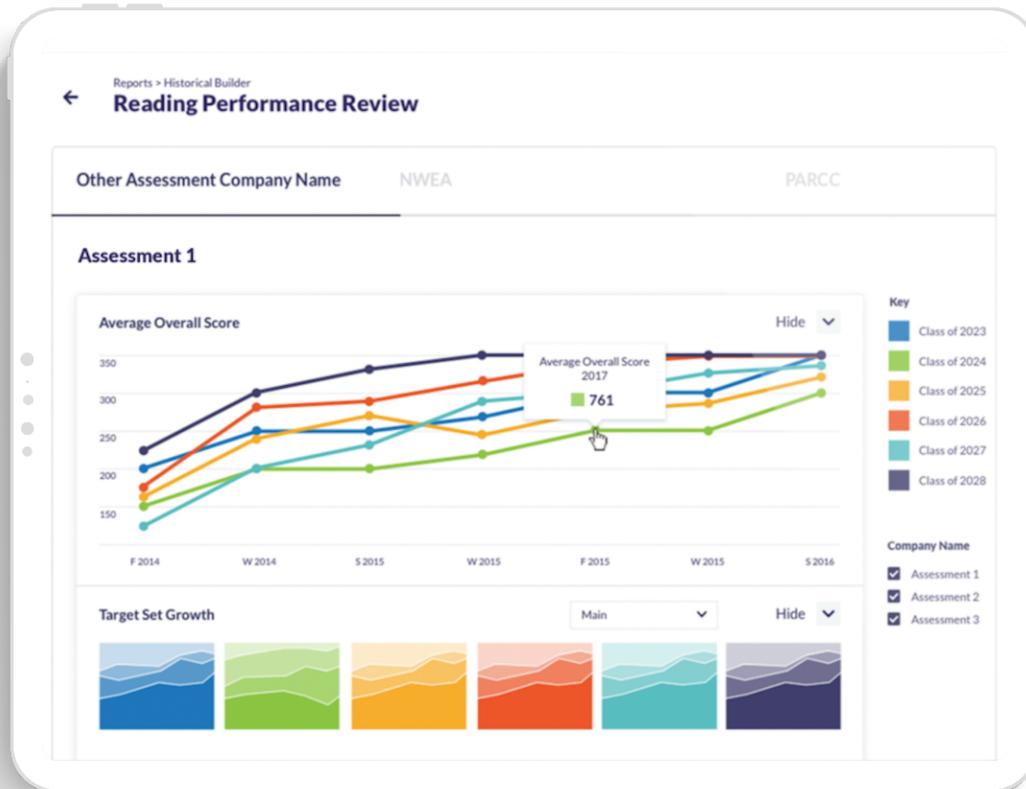

The teachers and administrators at Sterling Community Unit SD 5 wanted deeper, data-filled conversations about student growth. The problem? The data was **everywhere**. Rather than spending their time tracking down data and managing it across multiple systems and spreadsheets, they wanted one easy-to-use platform that would both save them time and give greater insights.

## Actions

Otus was the perfect match for Sterling Community Unit SD 5. Data that was previously tracked in various systems and spreadsheets was now available in one place for educators to analyze and act upon. Easy-to-understand visuals of third-party data contributed to data-rich conversations about student growth in the district.

## Results

Since implementing Otus as a data management system, Sterling Community Unit SD 5 now also uses Otus to create and manage assessments. In the first two years of using Otus, their students have completed over 96,000 assessments. This assessment data in combination with third-party data has allowed teachers and administrators to have valuable, data-informed conversations about student growth.

## Meet Otus

# Advanced Analytics

Otus brings all your student data together in one place, allowing you to spend less time finding relevant data and more time acting on it. Seamlessly access existing data with Otus' library of third-party data partners like NWEA, iReady and Renaissance. Discover trends in student populations based on performance, demographic, behavioral or social-emotional data that allow educators to quickly make data-informed decisions.

### Student Performance

To see your students for who they are, look beyond academic performance.

### Item Analysis

See performance on classroom, benchmark, state and national assessments.

### Cohort Analysis

See how students in a cohort move from low to higher performance targets on the same test over time.

### Performance Data

Drill into a single point-in-time to understand the breakdown of performance for each cohort.

## Software with a growth mindset

K-12 administrators, educators, students and families deal with disconnected edtech tools every day. Otus minimizes the chaos by providing one seamless platform to teach, grade, analyze and plan.

Access learning management, assessment, data and progress monitoring tools in one system, with one login. With Otus, school leaders can focus on student learning, not technology.
