Students Supported

Challenge

Superior Public Schools needed a way to store their student data and also a way to access and analyze it. They believed they could achieve a more holistic student view if they were able to combine data from multiple sources such as DIBELS, NWEA, NSCAS and ACT. All they needed was a platform that could ingest all this data and make it easily accessible.

Actions

Otus was a perfect match for Superior Public Schools. Data that was previously tracked in various systems and spreadsheets was now available in one place for educators to analyze and act upon. Easy to understand visuals of third-party data contributed to data-rich conversations about student growth in the district.

Results

Superior Public Schools is now able to track the data of over 450 students in one place using Otus – data that is instantly accessible to teachers and administrators. This data has empowered them to take action and utilize Otus to create actionable insights, creating a more data-driven learning environment for all their students.

Meet Otus

Advanced Analytics

Otus bring all your student data together in one place, allowing you to spend less time finding relevant data and more time acting on it. Seamlessly access existing data with Otus' library of third-party data partners like NWEA, iReady and Renaissance. Discover trends in student populations based on performance, demographic, behavioral or social-emotional data that allow educators to quickly make data-informed decisions.

Student Performance

To see your students for who they are, look beyond academic performance.

Item Analysis

See performance on classroom, benchmark, state and national assessments.

Cohort Analysis

See how students in a cohort move from low to higher performance targets on the same test over time.

Performance Data

Drill into a single point-in-time to understand the breakdown of performance for each cohort.

Software with a growth mindset

K-12 administrators, educators, students and families deal with disconnected edtech tools every day. Otus minimizes the chaos by providing one seamless platform to teach, grade, analyze and plan.

Access learning management, assessment, data and progress monitoring tools in one system, with one login. With Otus, school leaders can focus on student learning, not technology.
